Summary

Detail-oriented and analytical QA tester with a strong foundation in Manual Testing, SDLC, and STLC. Proficient in API Testing using Postman, with a solid theoretical understanding of SQA concepts and a keen eye for identifying and documenting software defects. Skilled in developing and executing detailed test cases and test plans. Knowledge of Agile testing methodologies and working in a Scrum team environment. A pro-active, tech-savvy, and responsible individual, eager to apply strong QA fundamentals as a fresh graduate in a fast-paced, agile environment.

Professional Experience

SQA Intern, Net2Apps

06/2025 – 08/2025

- Developed, executed, and validated test cases for SAP SuccessFactors modules (EC, RBP, LMS), using CodeBot to automate repetitive testing tasks as part of a summer internship.
- Collaborated with the QA team to identify and report software defects, generating tickets and documenting errors for timely resolution.
- Performed manual and exploratory testing across multiple modules under the supervision of the QA Lead, gaining hands-on experience in real-world enterprise testing workflows.

Projects

Login Page Testing - VWO Website

- Performed manual testing of the VWO login page by executing testcases for functionality, UI, validations, and error handling, with detailed bug reporting.
- GitHub: <https://github.com/kubramemon/Software> 🔗

API Testing using Postman

- Tested login and registration APIs using Postman by validating status codes, JSON responses, and executing positive and negative test scenarios.
- GitHub: <https://github.com/kubramemon/SoftwareTesting-Project2> 🔗

Website Performance Testing, – GTmetrix

- Analyzed website performance using GTmetrix with documented testcases and optimization suggestions.
- GitHub: <https://github.com/kubramemon/website-performancetesting-> 🔗

Education

Bachelor of Science in Information Technology, Sindh Agriculture University
CGPA: 3.81

02/2021 – 2025

Certificates

Agile And Scrum Fundamentals with JIRA
